THE DAILY NEWS

George Peabody.

BY OLIVER WENDELL HOLMES. Bankrupt—our pockets inside out!

Empty of words to speak his praises!
Worcest r and Webster up the spoul!
Dead broke of hudatory phrases!
But why with flowery speeches readWith vain superlations, and distress him?

as land reserved that these him?

A simple prayer—but words more sweet
By human lips were never uttered,
Since Adam left the coulotry seat,
Where angel wings around him fluit-red.
The old look on with tear-dimmed eyes,
he children cluster to caress him,
And every voice unbidden cries—
The frend of all his race—God bles; him !

THE CONSCRIPTION IN FRANCE. The operation of the conscription is exceedingly emple. The prefect of the department, together with a general of division and a commissary of police, sit together at a table on winch is set a manageney cylinder hung between two uprights, and moving upon pivots. The cylinder contains just as many tickets as there are lads about to draw, and as the drawers are all those who have attained their twentieth year within the twelvement, there are generally about 120 every year in a rural canton. Out of these 120 the gov rument usually require 60 for the service, so that if among those who draw the first 60 figures there are none who claim exemption, the rustic who draws No. 61 may consider himself safe. But this is seldom the case. Out of the first 60 there are sometimes as many as a score who are ex-61 may consider himself safe. But this is seldom the case. Out of the first 60 there are sometimes as many as a score who are exempted on account of bodily infirmities, or from being only aons of widows, or, again, from having an elder brother already in the army. A consoript, therefore, cannot call himself well out of the woods unless he pulls out a ticket marked with some figure above 80; in other words, the chances against him are about three to two. It is only fair to state that the whole ceremony is conducted with great fairness; uo cheating is possible. The tickets are all rolled up like small spills, and before pulling one out the conscript is allowed to give the whirligig as many turns as he likes, in order to pix them all up together, but by the new army law, passed in 1868, those who draw "bad numbers" have to serve very nearly nine years and a half—1. e. rather more than five years in the regular army and four years in the reserve. The "good numbers" have to do five years in the Garde Nationale Mobile. The conscription always takes place towards the end of January or the beginning of February, but by the new law the conscripts are not enrolled this July. If, however, a lad likes to join at once, he is at liberty to do so, and he has then the privilege of choosing his regiment, which those who only join in July have not.

It may be mentioned cursorily that it is the Alisabalit who are supposed to make the best soldiers. They are tall, strong and honest. Most of them join immediately after they have drawn, and elect for the attillery so as to have a greater chance of armaining hear home, there help? "ways eyeral regiments of attillery men quartered at strasburg;

as to have a greater chance of "emaining hear home, there here" a ways several regiments of artifle; men quartered at Straeburg, Colmar and Mulhouse. The Marseillais, who are small and fiery, are generally put into the Zouaves, 'Indy are good soldiers in war, but in sing of peace they are the plagues of a garrison, being eternally fighting, drinking and thiering. The Parisians, if they have their Ocolce, invariably ask to be hussafe or lancers, and it is a well known fact that they make the worst soldiers in the army. With them it is all brag and show; they keep themselves very neat and smoke eigerettes, but they selves very neat and smoke cigarettes, but they are idle, and, when scolded, sulky. They always rejoice exceedingly when peace is proclaimed.—Pail Mail Gazette.

DARBY'S PROPHYLACTIC FLUID.

Letter from Hon. Alex. H. St-phens, of Georgia.

CRAWFORDSVILLE, Ga. September 29, 1868.

Darby's Prophylactic Finid is an article of little cost, but great value. Its domestic as well as medicipal uses are numerous, while its specialties are most wonderful. I have not been without it for ten years, and no head of a jamily who can afford to have it should be without it.

ALEX. H. STEPHENS.

THE WONDERFUL FAMILY MEDI. Letter from the Surgeon-General of the late Confederate States.

BYCHNOND, Vm., Jaousry 14, 1869.

JOHN DAMBY & Co., No. 160 Wilham-street, New

JOHN DARBY & CO., NO. 180 William-street, New York:

Gentlemen—I have received your letter of the 15th of December, 1868, calling my attention to your (Darby's Prophylactic) Finitd.

I most cheerically state that the Fluid was furnished to, and extensively used by, the surveous incharge of general hospitals in the Confederate service with great benefit to the patients—all the surgeons making a favorable report—a great deal of it was used in the hospitals.

was used in the hospitals.

Very respectfully, your obedient servant,

SAM'L PRESTON MOORE, M. D. THE ASTONISHING DISINFECTANT.

EMORY COLLEGE, GYFORD. GA., December 28, 1868.

Prof. DARRY. Dear Sir—Having not been engaged for many years in the active duties of the Medical profession. I am only superficially acquainted with the claims of your Prophylactic Fluid, but am well acquainted with its chemical elements.

While, theratore, I cannot speak experimentally of the value of the compound, vet the disinfecting and therapeutic properties of the sgents employed in its composition, together with the well known reputation of its discoverer, as a chemist, authorize me to regard its merits as of a high order; on the whole it must be considered as a valuable contribution to the class of articles to which it belongs.

These views, I may add, are sustained by the testimony of many competens judges, who have tested its properties.

Elleve me, dear sir.

Yours, respectfully,

AMEANS, M. D. L. L. D.

Yours, respectfully.

ALABAMA INSANE HOSPITAL,
TUSCALOOSA. December 22, 1868.
Messrs. John Darby & Co., No. 160 William-street New York:

Gentlemen—I received your circulars of the 10th instant, asking an expression of opinion from me as to the merits of your Prophylactic Fluid. The preparation has been so generally used by the protession and public at large, and so universally esteemed, that it seems to me to need no further recommendation.

ed, that it seems to me to need no further recommendation.

As a disinfectant and remedial agent too, when indicated, it is not excelled by any similar preparation. We use permeanganic preparations very extensively in this hespital, and could not do without them. I consider yours the best and most elegant preparation of the kind manufactured.

Respectfully yours, &c.,

Bup't and Physician Alabams Instance Hospital.

Brugs, Chemicals, Etc DR. O. S. PROPHITT'S

CONSISTING OF HIS CELEBRATED LIVER MEDICINE ANODYNE PAIN KILL IT.

ANTI-BILIOUS PILLS, AGUE PILLS, Dysentery Cordial, Female Tonic

PURIFYING PILLS.

THE FEGELLENT REMEDIES OF O. S. PROPHITT, M. D., need no recommendation—their well known power in removing the diseases peculiar to our Southern climate having already established for them an enviable reputation in Georgia and the adjoining states. As the majority of persons living in the South are predisposed to disease of the Liver, it is granted by all intelligent physicians that most of the pains and aches of our people are due to organic or functional derangement of that important organ. Prophitt's Liver Medicine and anti-Billous Fills strike directly at the root of the evil. They cure the Liver, which in nine cases out of en, is at the bottom of the Coughs, Dyspepsta, Colic. Sick Headache, Rheumatism, Constipation, Menstrual Obstructions, &c., so common among our people. Earache, Toothache, Acute Rheumatism, Neuralgia and bodily pains of every kind fice before PROPHITT'S PAIN KILL IT

PROPHITY'S LIVER MEDICINE. Dr. Prophitt—Baving used this medicine snffi-ciently long to test its virtue, and to satisfy my own mind that it is an invaluable remedy for Dyspepsia —a disease from which the writer has suffered much for six years—and being persuaded that hundrees who now suffer from this sanoying complaint would be signally benefitted, as he has been, by its use, we deem it a duty we owe to this unfortunate class to recommend to them the use of this remedy, which has given not only himself but several members of his family the greatest relief.

M. W. ARNOLD. M. W. ARNOLD.
Of the Georgia Conference

DOOLY COURTY, GA'; April, 1867.

This is to certify that I was confined to the house, and most of the tire to my bed, and suffering the greatest agony imaginable with Rheumatism, for two months, and after trying every available remedy, with no relief, I was cured with two bottles of Dr. O. S. Prophiti's Anodyne Pain Kill II, each costing tity cents only; it relieved me almost instantly. I therefore recommend it in the highest degree to others suffering from similar disease. I can say that it is one of the best family medicines now out, certain. Yours truly, W. A. FOREHAND.

Covington, Ga., July 9, 1867.

Dr. Prophit.—Having used your Liver Medicine for more than a year in my family, I cheerfully recommend it to all persons suffering from Liver attections. Byspepsia or Indigestion in any form. I also recommend your Tylentery Cordial as the best remedy for that disease.

O. T. ROGERS.

STANFORDVILLE, PUTNAM COUNTY, Oct. 1, 1867.

Dr. O. S. Prophit.—Dear Sir.—Ihis is to certify that I have used your Arme Pills for the last ten years, and I have never falled to care the Ague in a single instance with them. They always break the chills the first day that they are given. I can recommend them as being the oest ague medicine that I have ever found, and they leave no bad effects following them, as Quintie, &c.

Yours respectfully.

A. WESTBROOK. PUTNAM COUNTY, GA. September 22, 1868.

Dr. O. S. Prophitt—ir—I bave used for the last two years in my family you. Liver Medicine, your Pain Kill It, and your Female Tonic, and I have no fears in eaying that they are the best medicines I have ever used for the Liver and Storach. Neuralg c and Rhumatic afflictions, Headache, Colic, and pains of every kind are subdued by them. After using the medicines so long, I cheerfully resommend them to any and every one, and to all that are afflicted, as the best and safest remedies for all the diseases for which they are recommended, &c.

Your respectfully. JAMES WRIGHT.

JAMES WRIGHT. DR. PROPHITT'S FEMALE TONIC. This Medicine, with its associates, is a mafe and certain remedy for all curable diseases to which Females alone are liable. It is also an excellent preventative of Nervous Biledences, or Nervous Discates in either male or ten ale. It is a powerful Nervine Tonic, setting up a full and free circulation throughout the system.

All of the above Medicines sold by Druggiets and Merchants generally throughout the southwest.

FROM WBIOH MANKIND SUFFER over a large part of the globe, is the consequence of a diseased action in the system, induced by the politonious missm of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it.—
While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs much blood. There it acts as an irritating poison on the internal viscera and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the blic accumulate in the circulation, and produce vice ent constitutional disorder. The spleen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as it in an uttempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the Chill. But in this effort it islis. Then the Fever follows, in which the blood leaves the central organs and rushes to the surface, as it in another effort to expel the irritating potson through that other great excretory—the skin. In this also it fails, and the system alsandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits of paroxysms of Fever and Ague. Such constitutional disorder will of course under mine the health if it is not removed.

We have labored to find, and have found an anti-dote,

AYER'S AGUE CURE. Which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the blood. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in the lith although exposed to the disease. Contemporarior was a state of the disease. those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism. Gout, Blindness, Tootbache. Farache, Catarrh, Asthma, Palpitations Painful Affections of the epleen, Hysterics, Colic, Paralysis, and Painful Affections of the epleen, Hysterics, Colic, Paralysis, and Painful Affections of the epleen, Hysterics, Colic, Paralysis, and Painful Affections of the epleen, Hysterics, Colic, Paralysis, and Painful Affections of the epleen, Hysterics, Colic, Paralysis, and Painful Affections of the epleen, Hysterics, will be found to assume, more or less, the intermittent type. This "AGUE CURE," removes the cause of these derangements and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habited to do this, their office, of their own accord. Hence arises what we term acclimatation. Time may accomplish the same end, but often life is not long snough, or is sacrificed in the attempt, while this "Ague Cure" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the minamatic injection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good.
